Two-Stage least squares (2SLS) regression analysis is a statistical technique that is used in the analysis of structural equations.

Two-Stage Least Squares (2SLS) Regression Analysis ...

Probability and Statistics > Regression Analysis > Standardized Beta Coefficient. What is a Standardized Beta Coefficient? A standardized beta coefficient compares the strength of the effect of each individual independent variable to the dependent variable. The higher the absolute value of the beta coefficient, the stronger the effect.

Standardized Beta Coefficient: Definition & Example ...

The threshold odds ratio of 1.44 for noninferiority is based on the actual failure rate (25%) in the electrolyte maintenance solution group in our study using the a priori-determined margin of noninferiority (7.5%), yielding the threshold failure rate of 32.5% for the half-strength apple juice/preferred fluids group.

Bayesian inference is a method of statistical inference in which Bayes' theorem is used to update the probability for a hypothesis as more evidence or information becomes available. Bayesian inference is an important technique in statistics, and especially in mathematical statistics. Bayesian updating is particularly important in the dynamic analysis of a sequence of data.
