Clonal hematopoiesis of indeterminate potential (CHIP), which is defined as the presence of an expanded somatic blood-cell clone in persons without other hematologic abnormalities, is common among ...

Clonal Hematopoiesis and Risk of Atherosclerotic ...

Introduction. Cardiovascular diseases (CVDs), especially coronary heart disease (CHD), have assumed epidemic proportions worldwide. Globally, CVD led to 17.5 million deaths in 2012. 1 More than 75% of these deaths occurred in developing countries. In contrast to developed countries, where mortality from CHD is rapidly declining, it is increasing in developing countries. 2 This increase is ...

Trends in Coronary Heart Disease Epidemiology in India ...

Abstract. The degradation of refractories used in the construction of glass melting furnaces, whether caused by the action of molten glass, vaporized melt constituents, products of fuel combustion, or by batch dusts and vapors, can normally only be assessed after a campaign when the furnace is partially or completely disassembled.

Refractory Degradation in Glass tank Melters. A Survey of ...

NOTE: Tentative Program: Selected papers listed below may not be in the order in which they will be presented. The final technical program may differ from that shown due to paper withdrawals. All technical sessions will be held in Town Center South at The Woodlands Waterway Marriott Hotel & Convention Center.

The physico-chemical properties of oil from Moringa oleifera seed were determined following extraction either with petroleum ether or 2% Neutrase 0.8L (a neutral bacterial protease from Bacillus amyloliquefaciens, Novozyme Bagsvaerd Denmark).The enzyme was chosen following a

preliminary study conducted on the enzymatic extraction of *M. oleifera* seed oil using four commercial enzymes that showed ...

Some physico-chemical properties of *Moringa oleifera* seed ...

where, RQI is reservoir quality index (μm); Φz is pore volume-to-grain volume ratio and FZI is flow zone indicator (μm).. Equation 2-4 are used to compute the functions for plotting a log-log plot based on for RQI versus Φz . All data that have similar FZI will be on a straight line slope equal to one and the value of FZI is determined at the intercept of the slope at $\Phi z = 1$.

Hydraulic (Flow) Unit Determination and Permeability ...

Lorcaserin, a selective serotonin 2C receptor agonist that modulates appetite, has proven efficacy for weight management in overweight or obese patients. The cardiovascular safety and efficacy of ...

Cardiovascular Safety of Lorcaserin in Overweight or Obese ...

Abstract. Bioassay is defined as estimation or determination of concentration or potency of physical, chemical or biological agents by means of measuring and comparing the magnitude of the response of the test with that of standard over a suitable biological system under standard set of conditions.

Principles Involved in Bioassay by different Methods: A ...

In vitro evaluation of the skin permeation of drugs. In vitro methods enable precise control of experimental variables by using the simplest protocols. However, in vitro assays cannot fully reproduce the complexity of biological systems, and in vivo evaluations are recommended to validate the results and, if possible, establish an in vivo-in vitro correlation.

Evaluation of skin absorption of drugs from topical and ...
