Overview. As you learned in Unit 4, ecosystems are a complex and delicate balancing game. The addition or removal of one species affects many other species with which it might compete for, or provide food. In this lab you will get a chance to “build your own” ecosystem, and explore the effects of these interrelationships.

In An Ecology of Mind, several people who have known Bateson well, like Fritjof Capra, Steward Brand and the governor of California Jerry Brown, share how they have been inspired by his thoughts, adding to a better understanding of who this man was. But perhaps Nora Bateson’s biggest achievement is that she is able to explain abstract and (at least at first-sight) rather inaccessible concepts ...
