In Windows 8 and 8.1 there are two "Lock" screens. The user lock screen is the one that displays when a user locks the PC while still signed in to Windows, and when the user is selected on the sign in screen, times out, and returns to the lock screen. Each user is able to change their lock screen background image to an image of their choice.

It's no secret I have an icon fetish, and it makes me smile every time a new high-resolution device icon appears in Windows 7's "Devices and Printers". It wasn't very long ago that most devices appeared in Windows with indistinguishable device descriptions and icons, but with Windows 7, devices not only work well, but look great.
