In probability, statistics and related fields, a Poisson point process is a type of random mathematical object that consists of points randomly located on a mathematical space. The Poisson point process is often called simply the Poisson process, but it is also called a Poisson random measure, Poisson random point field or Poisson point field. This point process has convenient mathematical ...

Announcement Why $P=0.05$? The standard level of significance used to justify a claim of a statistically significant effect is 0.05. For better or worse, the term statistically significant has

become synonymous with $P = 0.05$. There are many theories and stories to account for the use of $P = 0.05$ to denote statistical significance.

Why $P = 0.05$? - Jerry Dallal

This program is designed to provide the student with strong academic preparation in both computer information systems, as well as business and liberal arts and sciences.
