I have a small convection oven and it got a little wet and started acting funny but in a few minutes worked fine and all buttons work except for the start button. Should I just get a new one at wal mart for 30 bucks or is the a potential easy fix? I didnt really do anything to dry it out but its been months and I just forgot about it in the basement and still isn't working yet.

Laura (Jaye Summers) sits alone on a set of stairs and watches quietly as a party carries on. It's late into the night at this point, and what was presumably started as a crowded, high energy event has started to wind down as most of the partygoers have left by now, the basement littered with red cups, beverage bottles, bowls of chips, and a general state of messiness left behind.
