How people decorate their bodies provides insight into cultural expressions of achievement, group allegiances, identity, and status. Tattooing has been hard to study in ancient societies for which we do not have tattooed mummies, which adds to the challenge of placing current body modification practices into a long-term global perspective.

Redefining the age of tattooing in western North America ...

An image sensor is a device used primarily in standalone or embedded digital cameras and imaging devices. Typically, when light strikes the lens of a camera, the image sensor captures that light, converts it into an electronic signal and then transmits it to the camera or imaging device processor, which transforms the electronic signal into a digital image.

What is an Image Sensor? - Definition from Techopedia

Raheem Kassam (born 1 August 1986) is a British political activist, former editor-in-chief of Breitbart News London, and former chief advisor to former UK Independence Party (UKIP) leader Nigel Farage. Kassam contested the party's November 2016 leadership election before dropping out of the race on 31 October 2016.

Nobel Prize winning economist Milton Friedman once wrote that there is "one and only one social responsibility of business – to use its resources and engage in activities designed to increase its profits, so long as it stays within the rules of the game, which is to say, engages in open and free competition without deception or fraud." (Capitalism and Freedom, Milton Friedman, 1962)
