SHOCK is an exciting medical thriller centering on cutting edge technology experiments conducted by people who want to milk a cash cow (no offense to the cow). Robin Cook's work is so frightening because the technology exists today for these experiments to be carried out by unscrupulous,...

**Detailed Review Summary of Shock by Robin Cook**

Robin Cook, with his book, Coma, is considered the father of the medical thriller genre, and with good reason. Many of the author's books have been made into movies (including Coma, which was directed by Michael Crichton), and some readers have come across the books after first watching the chilling movies.

**Toxin / Schock by Robin Cook - Goodreads**

I have always enjoyed Robin Cook in past years because his stories sounded like they were possible situations but this book is just plain dumb. The storyline is not even believable. I listened to the whole book hoping at least for an exciting ending but the ending bombed. I would not recommend this book to anyone.
