A document management system (DMS) is a system (based on computer programs in the case of the management of digital documents) used to track, manage and store documents and reduce paper. Most are capable of keeping a record of the various versions created and modified by different users (history tracking). The term has some overlap with the concepts of content management systems.

Database access using OpenOffice.org It is my experience that database access is not well understood as it relates to OpenOffice.org (OOo). A book has been released named Database Programming with OpenOffice.org Base & Basic. I have only seen one chapter of the book, but there was certainly some very good information in the book, and it is worth a good read.

History. The three-state solution essentially replicates the situation that existed between the 1949 Armistice Agreements and the 1967 Six-Day War. Beginning in 1949, Egypt occupied the Gaza Strip, Jordan occupied the West Bank, and no Palestinian Arab state existed. In 1950, Jordan officially annexed the West Bank and granted its Arab residents Jordanian citizenship.
