The Art And Science Of

The Art and Science of Training presents the science for learning and development, but it also emphasizes that training success lies in knowing what to do when things don't go as planned. Discover how top facilitators always put learners first, even when faced with exceptions to the rule—the unwilling learner, the uninformed supervisor, the inappropriate delivery medium, or the unmanageable performance challenge.

- Anyone can learn the art of giving and receiving feedback exceptionally well, but that doesn't mean it's easy or comes naturally to each of us. Often, we think of providing others with feedback or listening to feedback from others as a challenging experience, focusing on what we're doing wrong. But what if you could switch up that thinking and use feedback as a positive tool to help enhance ...
