4. Yourdon's Data Flow Diagrams (DFDs) Data flow diagrams were developed back in the seventies and their purpose is to represent data flows rather than activities.. While business process analysts give the nod to data flow diagrams, they generally agree that Yourdon's technique is dated and has one big limitation: it focuses on information rather than action.

Greg, One thing I've learned over the years is that the more expendable items you keep in inventory, the faster those items will be depleted. A look thru what's available on Ebay in brand new tooling at any given point of time indicates to me that there's a widespread problem with expendables leaving via the lunchbox express.
