Schopenhauer was born in 1788, two hundred years after Thomas Hobbes. If you read my review of "A Very Short Introduction to Free Will" you will know that Hobbes was a pioneer in breaking free of the theological view of man. He insisted that human beings are just another form of animal life and Schopenhauer follows the same path.

'The world as will and representation' examines Schopenhauer's doctrine of the will in his greatest work. His conception of will expressing itself within humanity, and the polarity he discovers between our being governed by the will and our escaping it, enables him to explain thought-processes as having an organic, survival-directed function, to show the influence of unconscious drives and ...
