Even though this book was written 40 years ago, much of what the author discusses in his book is just as pertinent today as it was then, if not more. In William Dufty's Sugar Blues, the author goes to great length to discuss the history of sugar and how such a seemingly innocent substance could bring about so much damage.

WHY SUGAR IS TOXIC TO THE BODY. Minerals such as sodium (from salt), potassium and magnesium (from vegetables), and calcium (from the bones) are mobilised and used in chemical transmutation; neutral acids are produced which attempt to return the acid-alkaline balance factor of the blood to a more normal state.

### **REFINED SUGAR The Sweetest Poison of All by William Dufty**

This leads to adrenal fatigue and in turn makes blood sugar ups and downs ever more pronounced. Note this, for many of us have adrenals already fatigued from overeating of sugar. According to William Dufty in "Sugar Blues" the difference between sugar addiction and narcotic addiction is largely one of degree.
