Introduction. Do optical illusions trick your eyes or your brain? That is a question scientists were trying to answer for centuries. The answer is, it is a little bit of both since the eyes and the brain work together during the perception of vision. When you visually perceive an object, what is happening, put in the simplest way, is that the image of that object is projected onto the back of ...

January 22, 2019 There is no additional homework this week, aside from the Yellow Weekly Math Revisions. The term ends of Thursday. Instead of an after-school session, Mr. V. and I will make our last period on Thursday a 'study period' where students can check in with either one of us about their grades and certain assignments.
