The ocean is changing. As it changes, the ecosystem and the species within the ocean are impacted, sometimes in surprising ways. This is a story about how some of those changes—in temperature, where fish populations live, and the fishing communities that rely upon them—could play out along the Atlantic Coast in the next century.

Interpret The Impacts Of Rising Ocean Temperatures On ...

Grade 3 to Grade 5 Science Lesson Plans. Getting Rid of Germs - This is a good activity to do in the winter when students spend a lot of time indoors. It shows how easily viruses like the common cold can be passed. Be prepared though because getting rid of all the glitter afterward will take awhile!

Anthropology is a global discipline involving humanities, social sciences and natural sciences. Anthropology builds upon knowledge from natural sciences, including the discoveries about the origin and evolution of Homo sapiens, human physical traits, human behavior, the variations among different groups of humans, how the evolutionary past of Homo sapiens has influenced its social organization ...

Anthropology - Wikipedia

To allow accurate quantification of RBPs associated with poly(A) RNA under different physiological conditions, we developed a cRIC approach by combining the original protocol (Castello et al., 2013) with stable isotope labeling by amino acids in cell culture (SILAC) (Figure 1A). In brief, cells were grown in presence of light, medium, or heavy amino acids with incorporation efficiency >98%.

System-wide Profiling of RNA-Binding Proteins Uncovers Key ...

The Monarch Joint Venture is a partnership of federal and state agencies, non-governmental organizations, and academic programs that are working together to support and coordinate efforts to protect the monarch butterfly migration across the lower 48 United States.
