In 1986, astronomer John Barrow and astrophysicist Frank Tipler published the landmark work The Anthropic Cosmological Principle, which elaborated on the anthropic principle and the "cosmic coincidences" in considerable technical detail .

What is the anthropic principle of cosmology?

The Anthropic Cosmological Principle. It is well known that there would be no life without the sun and that the rotation of the earth causes day and night and the seasons. These influences have an undeniable effect on life on earth. But this is all trivial compared with what John Barrow and Frank Tipler have to offer in this book.

The Anthropic Cosmological Principle. (Barrow and Tipler).

The Anthropic Cosmological Principle by John D. Barrow, Frank J. Tipler. Ever since Copernicus, scientists have continually adjusted their view of human nature, moving it further and further from its ancient position at the center of Creation.

The Anthropic Cosmological Principle by John D. Barrow ...

The anthropic principle (Greek: anthropos, "human being") states that the universe was fitted from the very first moment of its existence for the emergence of life in general and human life in particular. In order for life to be present today an incredibly restrictive set of demands must have been present in the early universe—and they were.

The Anthropic Principle | John Ankerberg Show

What is the significance of mankind in the Universe? Ever since Copernicus, scientists have been moving man further and further from his lofty position at the center of Creation. But in recent years a startling new concept has evolved that puts humans more firmly than ever in a special position.
