Why is photography art? - Quora

Jump to navigation Jump to search. Photography is the science, art, application and practice of creating durable images by recording light or other electromagnetic radiation, either electronically by means of an image sensor, or chemically by means of a light-sensitive material such as photographic film.

Photography - Wikipedia

When you consider art and photography, you must realize that all viewers will have this very same reaction to your images. There is an order of discovery in all images, some longer and more involved than others. The order of subjects we view in any scene is what creates the path, leading the viewer from the first to the last. ...
