A polygraph, popularly referred to as a lie detector test, is a device or procedure that measures and records several physiological indicators such as blood pressure, pulse, respiration, and skin conductivity while a person is asked and answers a series of questions. The belief underpinning the use of the polygraph is that deceptive answers will produce physiological responses that can be ...

What happens when light travels from one medium to another, like from air to water? The answer can be described by Snell's Law, which is the main focus of this lesson.

What is Snell's Law? - Video & Lesson Transcript | Study.com

Usually this blog is reserved for matters involving corporate and securities law rather than updates in the accounting standards, but the email alert from the Financial Accounting Standards Board (FASB) that I received yesterday is definitely an exception. The FASB email alert first mentions that FASB yesterday issued Accounting Standards Update No. 2019-02, Entertainment—Films—Other ...
