Solutions for R. Shankar: Principles of Quantum Mechanics I got this book in my 3rd year of uni when a certain QM course was destroying my life. It seems to strike a good middle ground between being too mathematically simplified (Griffiths) and incomprehensible for beginners (pretty much every other text I tried to read back then).

I am trying to teach myself QM using Shankar's book. Unfortunately, not all of the the exercises have solutions (even though the introduction seems to say that solutions are in the text). If anyone knows where to find solutions it would be much appreciated. It is a bit difficult knowing if you actually understand something without a check. Thanks.
