Reduced Food Waste. Project Drawdown defines reduced food waste as: minimizing food loss and wastage from all stages of production, distribution, retail, and consumption. This solution replaces current reported trends in food waste by region. Estimates suggest that 30–40 percent of all food produced worldwide is wasted across the supply chain (Smith, P. et al., 2014).

A land ethic is a philosophy or theoretical framework about how, ethically, humans should regard the land. The term was coined by Aldo Leopold (1887–1948) in his A Sand County Almanac (1949), a classic text of the environmental movement. There he argues that there is a critical need for a "new ethic," an "ethic dealing with human's relation to land and to the animals and plants which grow ...
