A software release life cycle is the sum of the stages of development and maturity for a piece of computer software: ranging from its initial development to its eventual release, and including updated versions of the released version to help improve software or fix software bugs still present in the software.

Software release life cycle - Wikipedia

An octatonic scale is any eight-note musical scale. However, the term most often refers to the symmetric scale composed of alternating whole and half steps, as shown at right. In classical theory (in contrast to jazz theory), this scale is commonly called the octatonic scale (or the octatonic collection), although there are a total of 42 non-enharmonically equivalent, non-transpositionally ...

Octatonic scale - Wikipedia

Compliance Statement B: For laboratory developed tests not using a RUO kit, and for FDA approved, cleared or 510(k) exempt assays with alterations. This test was developed and its performance characteristics determined by ARUP Laboratories. The U. S. Food and Drug Administration has not approved or cleared this test; however, FDA clearance or approval is not currently required for clinical use.

Serum protein electrophoresis (SPEP) is an easy, inexpensive method of separating proteins based on their net charge, size, and shape. The 2 major types of protein present in the serum are albumin and the globulin proteins. Albumin is the major protein component of serum and represents the largest peak that lies closest to the positive electrode. [] ...

Alpha Trion is one of the oldest living Transformers, and with that age comes a nuanced understanding of his race and their place within the universe. In his youth, he went by the name A-3, and in this time, he helped lead the enslaved Cybertronians in their rebellion against their cruel masters, the Quintessons. As a result, he was instrumental in first establishing Cybertron as an independent ...
