Food is one of the simplest and most divine of the human pleasures. Here we examine its antithesis: hunger. All the people listed below have had to, by circumstance or dedication, go through extended periods of inedia.

9 Longest Records for Surviving without Food

Could inflammation be the root of preventable disease? In 2007, associate professor of medicine Samia Mora and colleagues published a study of exercise that sought to understand why physical activity is salutary. They already knew that exercise reduces the risk of cardiovascular disease as much as cholesterol-lowering statin drugs do.

Inflammation might be the root of preventable disease ...
