Outcomes-based healthcare is a popular topic of conversation in healthcare today. But despite its popularity, there isn't a standard outcomes-based healthcare definition. One possible explanation is outcomes-based healthcare's scope; it encompasses a vast spectrum of strategies used to transition from fee-for-service (FFS) to value-based care.

Healthcare in America is predicated on the notion that the overall medical system is fine. Yet even though healthcare went through a massive overhaul, all that really changed was access and affordability to current medical services. This glaring inefficiency has nothing to do with Mr. Obama's healthcare plan; it has always been this way.
