Lack of Water. Overpopulation creates greater demand on the world's freshwater supplies. As only roughly 1% of the world's water is fresh and accessible, this creates a major issue.. Some estimates state that human demand for fresh water will stand at approximately 70% of what is available on the planet by 2025. This will place those living in impoverished areas that already have limited ...

Overpopulation Causes, Effects & Solutions | Renewable ...

A perceived gap between the existing state and a desired state, or a deviation from a norm, standard, or status quo.. Although many problems turn out to have several solutions (the means to close the gap or correct the deviation), difficulties arise where such means are either not obvious or are not immediately available.
