Oracle Certification Program - Wikipedia

I had the same problem with sbt. It tried to fetch dependencies from repo1.maven.org over ssl but said it was "unable to find valid certification path to requested target url". so I followed this post and still failed to verify a connection. So I read about it and found that the root cert is not enough, as was suggested by the post,so - the thing that worked for me was importing the ...

How can I get started developing Java programs with the Java Development Kit (JDK)? Click to learn more. Writing Java applets and applications needs development tools like JDK.

Developing Java programs with the JDK

37. How are this() and super() used with constructors? Constructors use this to refer to another constructor in the same class with a different parameter list.; Constructors use super to invoke the superclass's constructor. If a constructor uses super, it must use it in the first line; otherwise, the compiler will complain.
