through in-depth case studies. Traditional statistics texts have many small numerical examples in each chapter to illustrate a topic in statistical theory. Here, we instead make a case study the centerpiece of each chapter. The case studies, which we call labs, raise interesting scientific questions, and figuring out how to answer a

### **Stat Labs: Mathematical Statistics Through Applications**

This course is designed for the advanced mathematics student. The goal of the course is to get students ready for AP Statistics or a Statistics course at the college level. Topics include organizing data, producing data, probability, and inference. We will be looking at topics in the AP Book, but with less rigor.
