One of the most neglected areas of medicine is the impact of the fascial sheath. The fascial sheath encases the body and every organ in it—like a tight sweater. Fascia is the connective tissue around all muscles. And science is now finding that one of the ways acupuncture works is by changing the signals that go through the fascia.

What is Muscle Fascia? | Christiane Northrup, M.D.

What is the optic nerve? It's the nerve responsible for getting information from your eye to your brain! Keep reading to find out how this nerve functions and then take the quiz to see how much ...

The foreskin in sex. Structure of the foreskin. It has been known since antiquity that the foreskin gives pleasure, and only forgotten in the US in the last century or so.. Central to Intactivist claims about foreskin function in sex is the work of Taylor et al., demonstrating that the foreskin itself is richly innervated with Meissner corpuscles, which are sensitive to light touch.

Fall risk is often predicted by factors related to the person, environment, and task. Stairway falls appear to represent a high proportion of falls, particularly for middle-aged adults, and result in a disproportionately high risk of death or of severe injuries known to result in long-term disability and high economic costs.

A review of stairway falls and stair negotiation: Lessons ...
