Still Life Adventures In Taxidermy

Taxidermy is the preserving of an animal's body via mounting (over an armature) or stuffing, for the purpose of display or study. Animals are often, but not always, portrayed in a lifelike state. The word taxidermy describes the process of preserving the animal, but the word is also used to describe the end product, which are called taxidermy mounts or referred to simply as "taxidermy".

Taxidermy - Wikipedia

Taxidermy is still used for the study of the natural world today. The Natural History Museum in London has 29 million animal specimens collected over 250 years.. Every year, around 10,000 scientists use the collections to enhance our knowledge of the origin of man, evolution, biodiversity, the future of the planet, and more. We can study species that are long extinct and learn how to preserve ...
