States And State Review Concept

Identify two changes of state that require energy to be used, and two changes of state that require the release of energy. Evaporation and sublimation require energy to be used. Condensation and freezing release energy. Apply the law of conservation of mass to explain how mass is conserved when water evaporates.

Concept Review: Changes of State Flashcards | Quizlet

Definition of State & Power. After all, it's part of our name. We live in the United States of America. However, there is a larger meaning behind the word 'state' that goes way beyond the idea of Pennsylvania, California, or Kentucky. In today's lesson, we're going to explore this a bit deeper as we discuss the broader political concept of the term 'state.'
