Springer Termite Solutions

Pest control is the regulation or management of a species defined as a pest, a member of the animal kingdom that impacts adversely on human activities. The human response depends on the importance of the damage done, and will range from tolerance, through deterrence and management, to attempts to completely eradicate the pest.

Bionics or biologically inspired engineering is the application of biological methods and systems found in nature to the study and design of engineering systems and modern technology.. The word bionic was coined by Jack E. Steele in August 1958, being formed as a portmanteau from biology and electronics. It was popularized by the 1970s U.S. television series The Six Million Dollar Man and The ...
