### **Book Review: Science of Logic by Georg Wilhelm Friedrich Hegel | Mboten**

This translation of The Science of Logic (also known as 'Greater Logic') includes the revised Book I (1832), Book II (1813) and Book III (1816). Recent research has given us a detailed picture of the process that led Hegel to his final conception of the System and of the place of the Logic within it. We now understand how and why Hegel distanced himself from Schelling, how radical this break ...

Annotation In a society where a comic equates with knockabout amusement for children, the sudden pre-eminence of adult comics, on everything from political satire to erotic fantasy, has predictably attracted an enormous amount of attention. Adult comics are part of the cultural landscape in a way that would have been unimaginable a decade ago.
