REVISED, UPDATED AND BETTER THAN EVER! This training favorite asks the simple question: If we shrunk the earth's population to a village of precisely 100 people, with all existing ratios remaining the same, what would it look like?

Village of 100, 4th Edition - Trainer's Toolchest

The Fourth Party System is the term used in political science and history for the period in American political history from about 1896 to 1932 that was dominated by the Republican Party, excepting the 1912 split in which Democrats held the White House for eight years. American history texts usually call the period the Progressive Era. The concept was introduced under the name "System of 1896 ...

Fourth Party System - Wikipedia

In physics and engineering, fluid dynamics is a subdiscipline of fluid mechanics that describes the flow of fluids—liquids and gases. It has several subdisciplines, including aerodynamics (the study of air and other gases in motion) and hydrodynamics (the study of liquids in motion). Fluid dynamics has a wide range of applications, including calculating forces and moments on aircraft ...

Abstract: The World Health Organization (WHO) identified information as one of the six key pillars of an effective health system. In this context, the need to strengthen community health information has been felt globally. African countries have faced the greatest challenges in collecting, analyzing, evaluating and interpreting indicator data to guide evidence based policy-making.
