The eight 2015 Model Principal Supervisor Professional Standards are the first-ever standards developed for supervisors of school principals and are voluntary. They are designed for state education agencies and local school districts to help recruit, select, support and evaluate supervisors of principals. States and districts likely will adapt them to local needs.

Terms. Age-sex structure: The composition of a population as determined by the number or proportion of males and females in each age category. The age-sex structure of a population is the cumulative result of past trends in fertility, mortality, and migration. Information on age-sex composition is essential for the description and analysis of many other types of demographic data.
