8.1.1 The Design of Gadget, Fat Man, and "Joe 1" (RDS-1). The design of the Gadget and Fat Man devices are discussed together since they are basically the same. Gadget was an experimental test version of the implosion system used in Fat Man and were identical in all but a couple of details. A test of the implosion bomb was considered essential due to the newness of the explosive wave shaping ...

In Canada off-site liability for a nuclear accident is insured under the Nuclear Liability and Compensation Act (2015). Under this legislation, which conforms to international conventions and is conceptually similar to legislation in other countries (such as Price-Anderson in the US), all liability up to a limit of CDN\$1 billion is channelled directly to the operator.
