"Making Things Happen" is a project management book that breaks away from the usual mold. There is so much emphasis on a PMP certification that many project management titles have become dry recitations of the PMBOK. Not so with this book! The book is eminently readable, and the advice is well-grounded in real-world experience.

It's been said that there's an art of project management. It's also been said that there is a science to project management. Since art and science are generally posed against one another, it's easy to make the assumption that you cannot combine art and science in project management. In this article, Ronda Bowen discusses how project management is an art, but project management is also a science.
