### **Sysprep With Answer File**

History. Sysprep was originally introduced for use with Windows NT 4.0. Later versions introduced for Windows 2000 and Windows XP are available for download from Microsoft and included in the Windows CD. Windows Vista is the first version of Windows NT to include a version of Sysprep that was independent of the hardware abstraction layer (HAL), in the "out of box" installation.

Hate to be the bearer of bad news, but no, still 3.0.0.0 in that location. Further more the auto update function is broken. :-) If you look past the fact that you've must of included a debug version with a lot of informative dialogs, the only thing that that one does is deleting the old one but failed to install the new one.
