Top 10 Best Technical Analysis Books – Technical analysis is unique in the sense that it foregoes the study of company financials, industry conditions and other information and focuses on price trends to predict future trends. Proponents of technical analysis believe that all of these factors are already accounted for in the stock prices.

An open-high-low-close chart (also OHLC) is a type of chart typically used to illustrate movements in the price of a financial instrument over time. Each vertical line on the chart shows the price range (the highest and lowest prices) over one unit of time, e.g., one day or one hour. Tick marks project from each side of the line indicating the opening price (e.g., for a daily bar chart this ...
