AKVIS Magnifier is an efficient tool for increasing image resolution. If you attempt to blow up a picture (increase its resolution) using the standard Resize command of a photo editor, you will notice that the resulting photo is blurred and pixelated. The reason is that the input photo didn't contain enough information for the new size.

Super Audio CD (SACD) is a read-only optical disc for audio storage, introduced in 1999. It was developed jointly by Sony and Philips Electronics, and intended to be the successor to their Compact Disc (CD) format. While the SACD format can offer more channels (e.g. surround sound), and a longer playing time than CD, research published in 2007 found no significant difference in audio quality ...
