Secure and scalable. Run your surveys on highly secure, scalable and free World Bank Cloud or deploy Survey Solutions on your own servers to fully control who and how could access your data.

### **Survey Solutions**

Statistical process control (SPC) is the use of statistical methods to assess the stability of a process and the quality of its outputs. For example, consider a bottling plant. The entire system of production that produces filled bottles is termed a process. Suppose the weight of liquid content added to a bottle is critical for cost control and customer satisfaction.
