Sides' history highlights lessons from one of America's few large-scale conventional conflicts in the post-World War II era. Sides' story highlights the risk of miscalculating a foreign power's intention to intervene in a conflict, the American predilection to over-rely on technology in warfare, and the enduring importance of experienced leadership in combat.

The Strategy Bridge

Nuclear strategy - After the Cold War: The demise of the postwar alliance system and the rapid contraction of the Soviet empire in Europe required a rapid reassessment of strategy. For NATO the traditional calculus was turned upside down. There was no longer a conventionally superior opponent. In all respects, NATO was far more powerful than any other group of countries.

Reconstruction: A State Divided In most places, Reconstruction began after the Civil War, but not in Louisiana. Union soldiers had defeated New Orleans early in the war, and had the opportunity to test out their Reconstruction strategy in the state of Louisiana before the fighting had ended everywhere else.

Presidential Reconstruction [ushistory.org]

Reconstruction refers to the period following the Civil War of rebuilding the United States. It was a time of great pain and endless questions. On what terms would the Confederacy be allowed back into the Union? Who would establish the terms, Congress or the President?
