The three film stills below show drawings that superimpose the T-72 on comparable NATO tanks to illustrate the difference in the size. The scale appears to be slightly exaggerated in favour of the T-72 in these drawings; the height of the M60A1 seems to be warped as the turret is depicted is too tall and the commander's cupola is too short.

Tankograd: T-72: Part 2 - Blogger

The nervous system is the body's most organized and complex structural and functional system, and it profoundly affects both psychologic and physiologic function. This course discusses the importance of the central nervous system (CNS) to human function and the major consequences of central neurologic disorders. The onset of neurologic problems may be sudden, as in traumatic spinal cord ...
