Teaching Problem Resolution Story Elements

Setting: A story's setting refers not only to the physical location, but also the time the action takes place. It is the where and the when of a story.. **Character:** Depending on the nature of the story, characters are most often people or animals. Writers use characters to perform the actions and speak the dialogue of a story. They move a story's plot forward.

Like the traditional tale "The House That Jack Built," the stories below add repeating plot elements and characters in the text as the story progresses, until the whole structure topples from its own weight - usually with humorous results.

Story Skeletons: Teaching Plot Structure with Picture Books

Definition. The term problem solving means slightly different things depending on the discipline. For instance, it is a mental process in psychology and a computerized process in computer science. There are two different types of problems, ill-defined and well-defined: different approaches are used for each.

Problem solving - Wikipedia

Comprehension is the understanding and interpretation of what is read. To be able to accurately understand written material, children need to be able to (1) decode what they read; (2) make connections between what they read and what they already know; and (3) think deeply about what they have read.
