Piaget's body of work had two major theoretical thrusts: constructivism and stage theory. Both constructivism and stage theories articulate modern work on conceptual development, albeit transformed by developments in cognitive science and cognitive neuroscience.

Theories of development: In dialog with Jean Piaget ...

The determination of cut-off score that represents a better trade-off between sensitivity and specificity of a measure is straightforward. However, for multivariate ROC curve analysis, I have ...

How to determine the cut-off score for optimal combination ...

Recently, a colleague of mine asked for some advice on how to compute interrater reliability for a coding task, and I discovered that there aren't many resources online written in an easy-to-understand format - most either 1) go in depth about formulas and computation or 2) go in depth about SPSS without giving many specific reasons for why you'd make several important decisions.

Intraclass Correlations (ICC) and Interrater Reliability ...
