AET 101 Internal Combustion Engine Theory and Servicing. This is a theory/laboratory course designed to introduce the student to basic heat engine types, their physical configurations and various engine operating cycles.

### **Course Listing - Farmingdale State College**

Get help from an expert Calculus Tutor. The study of calculus involves using equations to determine how an object or process will change over time. Computer programmers rely on skills learned in calculus to design and apply algorithms to solve complex problems. Engineers also need the fundamental concepts from calculus on a daily basis, no matter what discipline they are in.
