Advanced Data Storage Solutions - DataCore Software

Data storage is undergoing a speed revolution. Flash media and faster interfaces like NVMe are overwhelming traditional 8G/16G Fibre Channel and 10Gb Ethernet networks. Faster servers and new cloud, analytics, and artificial intelligence (AI) workloads demand more bandwidth and lower latency. Storage architects are increasingly adopting an Ethernet Storage Fabric (ESF) or InfiniBand to upgrade ...

Mellanox Storage Solutions

Software-defined storage (SDS) is a marketing term for computer data storage software for policy-based provisioning and management of data storage independent of the underlying hardware. Software-defined storage typically includes a form of storage virtualization to separate the storage hardware from the software that manages it. The software enabling a software-defined storage environment may ...
