In mediation, two or more people come together to try to work out a solution to their problem. A neutral third person, called the mediator, is there to help them along. Most mediators have some training in conflict resolution, although the extent of their training varies greatly. Mediation is much less formal than going to court, but the conflict resolution process does involve distinct stages ...

The goal of most research on group development is to learn why and how small groups change over time. To do this, researchers examine patterns of change and continuity in groups over time. Aspects of a group that might be studied include the quality of the output produced by a group, the type and frequency of its activities, its cohesiveness, the existence of group conflict.
