When Dr. Seuss gets serious, you know it must be important. Published in 1971, and perhaps inspired by the "save our planet" mindset of the 1960s, The Lorax is an ecological warning that still rings true today amidst the dangers of clear-cutting, pollution, and disregard for the earth's environment. In The Lorax, we find what we've come to expect from the illustrious doctor: brilliantly ...

The meaning is, I believe, that in the human soul there is a better and also a worse principle; and

when the better has the worse under control, then a man is said to be master of himself; and this is a term of praise: but when, owing to evil education or association, the better principle, which is also the smaller, is overwhelmed by the greater mass of the worse--in this case he is blamed and ...
