Trade involves the transfer of goods or services from one person or entity to another, often in exchange for money. A system or network that allows trade is called a market.. An early form of trade, barter, saw the direct exchange of goods and services for other goods and services. [need quotation to verify] Barter involves trading things without the use of money.

Advisory Board - BWG Strategy

Cluster analysis or clustering is the task of grouping a set of objects in such a way that objects in the same group (called a cluster) are more similar (in some sense) to each other than to those in other groups (clusters). It is a main task of exploratory data mining, and a common technique for statistical data analysis, used in many fields, including machine learning, pattern recognition ...
