Quality Assurance vs Quality Control

Statistical Process Control (SPC). All you wanted to know about control charts and capability is covered and a complete free training is available

Statistical Process Control (SPC): Basics and free training

Quality management ensures that an organization, product or service is consistent. It has four main components: quality planning, quality assurance, quality control and quality improvement. Quality management is focused not only on product and service quality, but also on the means to achieve it. Quality management, therefore, uses quality assurance and control of processes as well as products ...

Quality management - Wikipedia

Originating in the 1920s as a sampling scheme for agricultural regulatory inspectors, the square root (Sqrt) of the lot size (N) + 1 was semiformalized in an unpublished report by the Association of Official Agricultural Chemists (now Association of Analytical Chemists) in 1927 (1). Although it was ...
